

## **BAGS FOR COMPOSTABLE KITCHEN/ YARD WASTE COLLECTION**

The City of Orillia now allows the following bags for Compostable Kitchen/Yard Waste Collection – in addition to clear plastic bags, tied bundles, and green bins/containers:

### **1. Paper Yard Waste Bags**

Note that if:

- a) the bag is left open
- b) the bag is dry, and
- c) it is not windy out,

the paper bag will be emptied and left behind for the resident to reuse. In most cases, however, the bag will be collected.

### **2. Certified Compostable Bags**

Only certified compostable bags sold with the following logo on the box are permitted in the City's compostable kitchen/yard waste collection program:

Larger compostable bags may be used to set out yard waste directly. The smaller bags may be used to line your compostable kitchen waste container. Alternatively, residents may use paper bags or newspaper as a liner.

For more information, please contact the Waste Diversion Site at 325-3522.
